HAD you ever stopped to think how impotent the tongue of scandal would be if there were no listening ear to catch its poison? Refuse to hearken unto the oily slime and the poison recoiling upon itself slays the dragon ere it accomplishes its fell design. Think about this and realize that he who listens is as bad as he who gives tongue to the evil report, and much sorrow and suffering will be spared this troubled world.

THE people have so far shown a very commendable disposition not to become excited over the prohibition fetich which Rankin, Carney, Maples, etal. pretend to wish to foist upon the state. Sensible men and men who are consistent in their belief in the principal of local self government will be slow to sweep away those safeguards of the constitution which has placed prohibition in every community where the preponderance of sentiment favors it and makes it impossible for the bootlegger to thrive, in order that the experiment of forcing something not wanted upon other communities may be tried. No consistent local optionist can be a statewide prohibitionist and it is this great conservative element that is going to stand between the state and the experience of such fanatic-cursed commonwealths as Alabama and Tennessee.

CONGRESSMAN Randall's friends appear to have put one over the friends of the oily Senator when they elected him Chairman of the delegation from Texas. His Spudship should be getting used to that sort of thing, for if no unforeseen complications arise that is only a foretaste of what Randall is going to do to him in the primary election next year.

WITH the unusual damp weather and the prevalence of measles, chicken pox, etc. it behooves our people to maintain the strictest of sanitary precautions about their premises. Breeding places for flies and mosquitoes should not be tolerated in a civilized community.

\$100 Reward, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address:

The Successful Men.

Perhaps it is more than true that half of the great college buildings in the land are splendid gifts from "Village Chumps," who broke away from home because they could not find a chance to expand or express themselves in their native two-by-four town, and never, or hardly ever after, got the first ghost of a show or the spare time to acquire an education.

Kicked By A Mad Horse.

Samuel Birch, of Beetown, Wis., had a most narrow escape from losing his leg, as no doctor could heal the frightful sore that developed, but at last Bucklen's Arnica Salve cured it completely. Its greatest healer of ulcers, burns, boils, eczema, scalds, cuts, corns, cold-sores, bruises and piles on earth. Try it. 25c at W. H. Windrow's.

Useless Effort.

There isn't much use asking humanity to bow before a great sacrifice when they constantly are prostrating themselves before enormous wealth.

Science's Highest Aim.

If science keeps on, it may be able to isolate the presidential bee some day.—Tombstone Epitaph.

## The Doctor.

Of all the servants of mankind, the physician is apt to be the most abused. We criticize him and pigeonhole his bills, but at the first twinge we are jangling his bell in alarm. Only a few days ago a special train was dashing across this continent because a rich man, dreading blood-poisoning, wanted his own doctor. This, in a superlative degree, is in the nature of the country boy riding the plow horse to town at a gallop to gaspat the doctor's door: "Pa's fell off the haystack and broke his leg." The physician is the man who must be ready always. Neither minute hand nor hour hand describes a time when he is not on duty. If he gets a whole night's rest, it is because the community happens to be free from aches and pains. He is the slave of the telephone, night bell, door bell and office bell.

After a hard day's work, another man goes to bed with the sense of having earned his rest; but the probabilities are that the physician will be asked to respond to some one's beck and call. He is altogether a special kind of person. His illusions are few. His inside information is enormous. If now and then he wears a superior smile, forgive him. He has probably just heard some remark which he knows to be hypocritical. Again, his jokes are likely to be a bit technical, and his view of life materialistic. But if he has a brand of idealism, you can put your trust in it, for he has learned it in a hard school. He has faced the worst, and can still believe the best. If he has a religion, it will be worth while, for he has wrested it out of the actual battles of good and evil in a life seen at close range.

The lawyer we take into our confidence occasionally; the clergyman we admit to parlor and dining-room; but the doctor goes into bed-rooms unannounced. If what he sees there surprises him, he does not let it be known. In the healing of bodies he has opportunities for healing souls which could never come to a priest. He is the lay father confessor, regardless of creed. He always fits in. He is a safe man on committees; he can turn his hand to any public business, and, if left alone, discharge it creditably. He knows more psychology in five minutes than the philosopher in a week, yet he is the least emotional of men.

When the lawyer is in tears before a jury, and the parson is pathetic from his pulpit, the doctor is keeping his nerve. The peculiar thing about him is that while fighting his grim and silent battle with death, without the applause of a crowd, often without pay, and sometimes without gratitude, he seems superior to all these considerations. He is responding to a higher sort of noblesse oblige which is almost unintelligible to the average man. Somewhere, either in this world or the next, he will reap his deserved reward.

—The Washington Herald.

Constipation brings many ailments in its train and is the primary cause of much sickness. Keep your bowels regular, madam, and you will escape many of the ailments to which women are subject. Constipation is a very simple thing, but like many simple things, it may lead to serious consequences. Nature often needs a little assistance and when Chamberlain's Tablets are given at the first indication, much distress and suffering may be avoided. Sold by all dealers.

**Log Cabin Schoolhouse in Maine.**  
Maine has one real log cabin schoolhouse, the building being situated on the estate of C. O. DeMerritt, a 1,500-acre farm in Riley plantation, of which Ketchum is the postoffice. It is located some ten miles from Bethel, and about 50 people live thereabout. The inhabitants pay no taxes except for the maintenance of the school, and are not restricted by any special town laws.

Every family that has children is liable to have croup; invariably at night. If Ballard's Horehound Syrup is kept in the house, it saves going after the medicine at an inconvenient time and checks the attack promptly. Price 25c, 50c and \$1.00 per bottle. Sold by W. H. Windrow.

A Good Deodorizer.

An orange peel placed on a hot stove makes a fine deodorizer. If the stove is hot enough it will burn like celluloid. However, if the stove is not hot enough, just touch a match to the peeling (after it has been heated through).

The liver loses its activity at times and needs help. Herbine is an effective liver stimulant. It also purifies the bowels, strengthens digestion and restores strength, vigor and cheerful spirits. Price 50c. Sold by W. H. Windrow.

Choose One Side or T'other.

Sooner or later the man who straddles comes to believe that the fence builders always put the sharp edged rails on top.—Bennington Banner.

Lame Shoulder is nearly always due to rheumatism of the muscles, and quickly yields to the free application of Chamberlain's Liniment. For sale by all dealers.

## CALOMEL SOMETIMES CAUSES SALIVATION

Dodson's Liver-Tone Has All the Medicinal Properties of Calomel With None of the Dangerous After-Effects

You can get along without taking calomel yourself or giving it to your family when you can buy a substitute for it as good as Dodson's Liver-Tone. Dodson's Liver-Tone is a pure, harmless vegetable liquid that starts the liver to action just as surely as calomel does. But unlike calomel, Dodson's Liver-Tone does not stimulate the liver too much. It cures constipation gently instead of making you more bilious than you were at first, and it can no more salivate you than a tablespoonful of maple syrup can salivate you.

Dodson's Liver-Tone has given such perfect satisfaction to every person to whom W. H. Windrow, Hondo Texas, has sold a bottle that this store will give the money back to any person who buys a bottle and does not find it a perfect substitute for calomel. It is worth something to you to try a medicine with a guarantee like that.

### Art and Philosophy.

It is through their escape from words that artists and musicians paint and compose truer things than philosophers say, things that survive vicissitudes of thought and are as true tomorrow as yesterday. With the music of the Roman Catholic church we all agree, and who shall contradict the Venus de Milo?

**Aids Nature**  
The great success of Dr. Pierce's Golden Medical Discovery in curing weak stomachs, wasted bodies, weak lungs, and obstinate and lingering coughs, is based on the recognition of the fundamental truth that "Golden Medical Discovery" supplies Nature with body-building, tissue-repairing, muscle-making materials, in condensed and concentrated form. With this help Nature supplies the necessary strength to the stomach to digest food, build up the body and thereby throw off lingering obstinate coughs. The "Discovery" re-establishes the digestive and nutritive organs in sound health, purifies and enriches the blood, and nourishes the nerves—in short establishes sound vigorous health.  
*If your dealer offers something "just as good," it is probably better FOR HIM...it pays better. But you are thinking of the cure not the profit, so there's nothing "just as good" for you. Say so.*

The blessing of the Bell for the new Catholic Church at Lacoste took place last Monday afternoon. A number from here attended.  
Sheriff J. F. Bader was in our midst Monday on official business.  
The grand Easter Balls, both at Wernettes Opera House and Nic. Tschirhart's Pavillion came off on schedule time and were well attended and much enjoyed. The best of order prevailed.  
Married: Mr. Louis Haegelin and Miss Mary Backhaus of Pipe Creek, Bandera Co., were united in the holy bonds of matrimony on Wednesday morning at the Lutheran Church, Rev. Walter Kralik performed the ceremony. The attendants were, Mr. Otto Haegelin and Miss Olga Haby, Henry Boehme and Miss Clara Haegelin, and Charles Haegelin and Miss Ethel Haegelin. After the ceremony the bridal party repaired to the hospitable home of the groom's parents, Mr. and Mrs. Emil Haegelin, where a sumptuous wedding dinner was partaken and the rest of the day was spent in feasting and celebrating the happy event. At night a dance was tendered the happy young couple. We join their many friends in wishing for them a long, happy and prosperous married life.  
Born, to Mr. and Mrs. Ferd Boehme of Riomedina, on Wednesday, April 19, a son and heir.  
Rev. Walter Kralik left Wednesday evening for New Orleans to attend the Annual meeting of the Lutheran Synod.  
A Mexican child died here Tuesday night and was buried Wednesday evening, and an adult Mexican died suddenly of heart failure on Wednesday morning at Albert Ihnken's ranch on Chicon and was brought to town Thursday morning and laid to rest at the

Mexican Cemetery.  
Light rains fell here Wednesday evening and night followed by a heavy down-pour Thursday night and another on Sunday morning.  
We learn that the heavy rains damaged the dam of Louis Ihnken's Lake to some extent.  
Mr. and Mrs. Ed. Hans and son, Harry, Mr. and Mrs. Emil Kauffmann and daughter, Miss Katie, Mr. and Mrs. Ed. Jungmann, Mrs. Wm. Bohl and others attended the Carnival at San Antonio the middle of the week.  
**Died.**  
Mr. Alois Burell died at the home of his nephew, Jos. Burell, at Riomedina, on Tuesday evening, April 18, and was laid to rest at the Catholic Cemetery on the following day. Rev. Father Heckman performed the last sad rites. Deceased was born at Mulheim Altdorf, Alsace, Germany, in the year of 1836, consequently had entered his 75th year of age at the time of demise. He came to this county in 1844 with his parents. Mr. Burell was never married. He was of feeble health for over forty years. He resided at Ft. McKavitt, Brownsville and in Mexico at intervals, but would always return to his home county, where at last his eventful career came to a close. Deceased leaves one brother, Stryachs Burell of Riomedina, one sister, Mrs. Theresa Dietrich of San Antonio, and one half brother, Mike Burell, and a large number of other near and dear relatives to mourn his loss. A large cortege of mourning relatives and friends followed the remains to their last resting place. May he rest in peace.

## Texas Cattle

The Texas steer fills the larder of the civilized world; provides boots and shoes for the rich and poor of two hemispheres and our dairy products are a factor in the world's trade. No Texas product is so well and favorably known as that of our livestock industry.

1910 VALUE PER HEAD \$19.80.

The Texas steer is a close student of the markets and has shown more business instinct than any other animal. From a reckless pioneer of the plains he has forged his way to the mastery of the world's markets and has transformed himself from a wild, unruly beast into a docile thoroughbred and today he is the leader in pecking house society, and faces the markets of the world as sound commercially as the Bank of England. He once went to market under his own steam, but he now rides in palatial cars and he is as much at home traveling in a tin can on an ocean liner as on the plains. He scales the tariff walls of foreign countries with as much ease as his ancestors climbed an ordinary rail fence.

The Texas steer possesses stronger powers of concentration than any other animal. He has but one purpose in life and that is to produce food for men and he displays a tenacity and ability in pursuing his chosen vocation that would be a credit to many members of the human race.

Texas grass—the staple of all animal foods—has been his principal diet and from it he has taken pure blood and solid flesh and built up a world reputation as the healthiest of animal foods. With the canopy of heaven for a covering and the natural pastures as a range he can be reared more cheaply in Texas than any other country on the globe.

Texas has twice as many cattle as any other state in the Union. According to the census reports of the Federal department of agriculture, Jan. 1, 1910, there were 3,268,000 head of cattle in Texas and the latest government estimate values them at \$19.80 per head. We have made an increase of over 1,000,000 head of cattle and a total increase in value of approximately \$38,000,000 during the past decade.

The Texas ranches are being cut into small tracts, but the cattle remain on the farm and increase in number and improve in quality and value.

A resolution proposing to amend the Constitution of the State of Texas, by amending Article 16, Section 20, thereof by striking out and repealing said section, and substituting in lieu thereof a new Section 20, prohibiting the manufacture for purposes of sale, barter or exchange, and the sale, barter and exchange of intoxicating liquors, on and after the second Tuesday in January, A. D. 1912, within this State, except for medicinal, scientific and sacramental purposes, and providing that the Legislature of the State of Texas shall, at noon on the second Tuesday in January, A. D. 1912, by authority of this section, meet in session in the city of Austin, and pass efficient laws to enforce this section; providing, further, that this section shall not prevent any session of the Legislature from passing any law to enforce the same; and, providing, further, that all laws in force when this amendment is adopted, providing penalties or forfeitures in relation to the manufacture, sale or transportation of intoxicating liquors, shall remain in full force and effect until modified or repealed; fixing the time for the election for the adoption or rejection of said proposed constitutional amendment, directing a proclamation to be made and making certain provisions for said election and the ballots thereof, and method of voting; prescribing certain duties for the Governor of this State, and making an appropriation to defray the expenses of said election.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

SECTION 1. That article 16 of the Constitution of the State of Texas be amended by striking out and repealing Section 20 thereof, and substituting in lieu of said Section 20 the following:

SECTION 20. The manufacture for purposes of sale, barter or exchange, and the sale, barter and exchange of intoxicating liquors on and after the second Tuesday in January, A. D. 1912, is hereby prohibited within this State, except for medicinal, scientific and sacramental purposes. The Legislature of the State of Texas shall, at noon, on the second Tuesday in January, A. D. 1912, by authority of this section, meet in session in the city of Austin and pass efficient laws to enforce this section; but nothing in this section shall prevent any session of the Legislature from passing any law to enforce the same; and all laws in force when this amendment is adopted providing penalties or forfeitures in relation to the manufacture, sale or transportation of intoxicating liquors shall remain in full force and effect until modified or repealed.

SEC. 2. The foregoing constitutional amendment shall be submitted to a vote of the qualified electors for members of the Legislature at an election to be held throughout the State of Texas on the fourth Saturday in July, being the twenty-second day thereof, A. D. 1911. At said election the vote shall be by official ballot, which shall have printed or written at the top thereof in plain letters the words "Official Ballot."

Said ballot shall have also written or printed thereon the words "For Prohibition," and the words "Against Prohibition."

All the voters favoring said proposed amendment shall erase the words "Against Prohibition" by making a mark through the same, and those opposing it shall erase the words "For Prohibition." If a majority of the votes cast at said election shall be "For Prohibition" said amendment shall be declared adopted. If a majority of the votes shall be "Against Prohibition" said amendment shall be lost and so declared.

All the provisions of the general election laws as amended and in force at the time said election is held shall govern in all respects as to the qualifications of the electors, the method of holding such election, and in all other respects, as far as such election laws can be made applicable.

SEC. 3. The Governor of this State is hereby directed to issue the necessary proclamation for said election and to have the same published as required by the Constitution and laws of this State.

SEC. 4. The sum of five thousand (\$5000) dollars, or so much thereof as may be necessary, is hereby appropriated out of any funds in the State Treasury, not otherwise appropriated, to defray the expense of such proclamation, publication and election. C. C. McDONALD, Secretary of State.

Ragged wounds are painful and cause much annoyance. If not kept clean they fester and become running sores. Ballard's Snow Liniment is an antiseptic healing remedy for such cases. ## STRENGTH OF SPIDER'S WEB

Single Thread Supports Weight Seventy-Four Times Weight of Spider Himself.

The strength of the spider, and of the materials it employs, is something almost incomprehensible, when the size of the insect and the thickness of his thread are taken into account. Recent experiments have shown that a single thread of a web made by a spider which weighed 54 milligrams supported endwise a weight of four grams, or 74 times the weight of the spider itself.

When, therefore, a spider spins a web to let himself down from the ceiling, or from the branch of a tree, and we see him descending without perceiving his thread at all, we may be perfectly sure that he is not only in no danger of falling, but that he could carry 73 other spiders down with him on his invisible rope. Knowing this fact with reference to a single thread, we need not be surprised that the threads of a web, interwoven and reinforced one by another, have a very considerable strength, and are able to hold bees and wasps, themselves very powerful in proportion to their size, and to bend without breaking under a weight of dew or rain.

Such a statement, coming from the cashier of a bank, shows what confidence responsible people have in these pills. Mr. A. L. Wilson after trying them wrote:

"I have used Dr. Miles' Nerve and Liver Pills and also your Anti-Pain Pills, on myself, with good results. The Liver Pills act so naturally and so easily that I scarcely know that I have taken a pill. Frequently being troubled with headache I take an Anti-Pain Pill and get immediate relief in every case."

The "one magazine" is CURRENT LITERATURE, because it alone sweeps the whole field of human thought and action in both hemispheres.

It contains a monthly review of the world's news; quotations from and comment on the press of the world; numerous graphic cartoons and other illustrations; photographs and biographic sketches of the conspicuous personalities of the month; the most recent advances in science and discovery; the noteworthy events in religion, literature and art; critical reviews of the best fiction, dramatic and musical works; a page of the best humor and a condensation of the leading play of the month.

It gathers impartially from every field of human thought and activity those facts which are best worth knowing and gives the reader a clear, well defined and illuminating view of what the whole world is doing.

**Who Was There That You Knew?**  
 IN the shadowy ranks of those who marched to defeat or death or victory fifty years ago in the mighty conflict that convulsed this great nation, is there father or grandfather or uncle of yours? Would you like to see a photograph of him in that long ago day of his youth—a photograph that he never knew was taken? Perhaps we can show you one; and in any case, we can tell you a story, stranger than any detective fiction, of 3,500 priceless photographs that were lost and are found again.

**3,500 Long Buried Photographs of the Civil War**  
 THEY were taken by the greatest photographer in the United States of that day; they were bought by the United States Government for \$30,000; they were buried in the War Department for 50 years—they are buried there still. But a duplicate set was kept by the photographer—who died poor and broken down; that duplicate set was discovered from pillar to post for nearly 50 years, until it was discovered by a New England collector. J. Pierpont Morgan tried to buy the collection—\$15,000—yet with Benjamin F. Butler said it was worth \$150,000—yet with the help of the Review of Reviews, the entire collection has been gathered into 10 great volumes and is placed within your reach at less than the value of one of the photographs. It is the one accurate, impartial history of the Civil War—the camera cannot lie. It tells the story of the War you never heard before. Taken under protection of the Secret Service, these photographs bring to light thousands of little-known phases of the war; they penetrate to strange places and record strange things.

 For the Cost of Mailing  
 In order to give you some idea of the greatness of this work we will send you 12 superb reproductions of the photographs free of charge to a handsome portfolio. These photographs are very expensive and valuable, but you send only 10 cents to cover the cost of mailing. They are not only interesting from a historic standpoint, but, framed, make a splendid addition to your library walls. At the same time we will tell you how the Review of Reviews can offer this \$150,000 collection of 3,500 photographs at the price the United States Government paid for three of the pictures.

Send the coupon at once.  
 Review of Reviews Company, 13 Astor Place, New York, N. Y.

Send me, free of charge, the 12 reproductions of your newly discovered Brady Civil War photographs ready for framing and contained in a handsome portfolio. Also send me how, for what the government paid for half a dozen prints, I can make the whole collection my own. I enclose 10 cents to cover the cost of mailing.
